

About TKRCET: TKR College of Engineering and Technology – a modern temple of learning, an off shoot of the TKR Educational Society was established in the year 2002 in a sprawling, lush green 20 acre campus at Meerpet, Hyderabad. The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the cut- throat global competition with a smile on the face and emerge victorious.

About the workshop:

The workshop is intended to nurture the technical skills, Professional etiquettes' and other personal attributes of The students.

Students would be guided on the infrastructure& the opportunities' that would help them to hone their skills in order to achieve their career goals

Objectives:

Encouraging the students to become a more creative & Innovative workforce.

**REPORT ON  
SKILL DEVELOPMENT PROGRAMME  
ORGANIZED BY TKRCET BETWEEN 7<sup>th</sup> TO 12<sup>th</sup> FEBRUARY 2022**

A skill development programme was organized in collaboration with **KAPIL KNOWLEDGE HUB PVT LTD** by **TKRCET** (autonomous) Hyderabad from **7<sup>th</sup> TO 12<sup>th</sup> FEBRUARY 2022**

The program commenced at 10am. The venue was the college auditorium. The welcome speech was delivered by Dr. D.V. Ravi Shankar Principal TKRCET.

Skill development refers to identifying the skill gap in a student and ensuring that he/she develops these skills.

The speaker highlighted the fact that skills in students determine the ability to achieve goals and execute better plans . Developing skills is important for students because it increases the scope for employment there by improving standard of living.

Dean Dr.A.Suresh Rao also spoke stating that skill development establishes a strong foundation for a thriving future. Self awareness , excellent communication skills , problem solving and critical thinking capabilities are some of the important benefits of learning through a well designed curriculum.

The programme was attended by nearly 200 students from various departments. The vote of thanks was delivered by Dr Naga Lakshmi from CSE department.

### ABOUT THE COLLEGE

TKR College of Engineering & Technology – a modern temple of learning, an off shoot of the TKR Educational Society was established in the year 2002 in a sprawling, lush green 20-acre campus at Meerpet, Hyderabad. The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the cut-throat global competition with a smile on the face and emerge victorious.

### ABOUT THE DEPARTMENT

The Department of Civil Engineering in TKRCET is well established with renowned experienced faculty members and equipped with all Civil Engineering laboratories. Research oriented work in the fields of concrete technology, geo-technical engineering and environmental engineering is being carried out through the students. Industry-academy interaction is established with many state government departments, organizations, companies and consultants through the major projects and mini projects are carried out for the students. Industrial tours, workshops and seminars/guest lecturers are a regular part of the academic curriculum.

The students of the department are proudly coming out with hands-on Civil Engineering knowledge paving their way for prosperous future career.

### VISION

Department of civil engineering strives to become a place of learning of imparting technical education of international standards and for conducting research on cutting edge technology to meet the global challenges. The department endeavors the students to become well qualified Engineers and to serve Humanity.

### MISSION

Department of civil engineering strives to prepare globally competent and successful civil engineers and also to provide in-depth knowledge and skills in the technical area pertaining to civil engineering.

### ABOUT THE PROGRAM

Industry 4.0, the fourth industrial revolution conceptualizes rapid change to technology, industries and social patterns in the present scenario due to increase in inter-connectivity and smart automation.

Industry 4.0 is the Information-intensive transformation of manufacturing in a connected environment of big data, people, processes, services, systems and IOT enabled industrial; assets with generation leverage and utilization of actionable data and information as a way and means to realize smart industry and ecosystems of industrial innovation and collaboration.

### PROGRAMME OBJECTIVES

The chief objective of this Seminar is to familiarize the advancement of Technology in various industries and to depict the future scenario for the upcoming generation and also to stimulate and improve efficiency, agility and safety in every aspect of their career advancement.

### TARGET GROUP

Faculty- research scholars and students from academic institution.

## SEMINAR REPORT

### INDUSTRY 4.0, A Digital Transformation

On: 23<sup>rd</sup> May 2022

By: IIC Civil department

#### Resource Persons:

1) Dr. N V S Raju,  
Professor & Co-coordinator,

Industry 4.0, the fourth industrial revolution conceptualizes rapid change to technology, industries and social patterns in the present scenario due to increase in inter connectivity and smart automation.

Industry 4.0 is the Information intensive transformation of manufacturing in a connected environment of big data, people, processes, services and IOT enabled industrial, assets with

generation leverage and utilization of actionable data and information as a way and means to realize smart industry and ecosystems of industrial innovation and collaboration.

The objective of the seminar is to familiarize the advancement of technology in various industries and to depict the future scenario for the upcoming generation and also to stimulate and improve efficiency, agility and safety in every aspect of their carrier advancement.

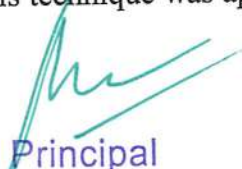

The insertion of Industry 4.0 Technologies into civil construction has allowed sensors, robots, modelling and simulation systems, artificial intelligence, and drones to have their productivity, efficiency, safety, strategic and environmental management enhanced. Industry 4.0 is revolutionizing the way companies manufacture, improve and distribute their products. Manufacturers are integrating new technologies, including Internet of Things (IoT), cloud computing and analytics, and AI and machine learning into their production facilities and throughout their operations.

#### Topic covered:

- Emerging technologies automation in construction Industry.
- Water supply automation for house hold drinking water.
- Electrical house hold appliances automation through sensors and internet.
- Necessity of learning software for civil engineers.
- Everyone should be updated himself to the new techniques.
- Scope of new business ideas for entrepreneurs.

Industrial revolution thermography has been widely used in civil engineering for the identification of heat losses in building envelopes. In numerous cases this technique was applied

  
Principal  
TKR College of Engineering & Technology  
(AUTONOMOUS)  
Medbowli, Meerpeta, Hyderabad- 500097

successfully for all kinds of buildings and many sources of heat loss have been successfully detected.

By adjusting the traditional nature of construction industry with the digitisation of manufacturing through Industry 4.0, construction industry may gain many benefits. This includes **lower cost of production due to reduced labour, improved communication and increased quality of product or services.**

### Industry 4.0 technologies

- Industrial Internet of Things. IIoT is a subset of the Internet of Things (IoT) aimed especially at industrial applications. ...
- Big data. ...
- Cloud computing. ...
- Autonomous robots. ...
- Simulation. ...
- Horizontal and vertical integration. ...
- Cyber security. ...
- Virtual and augmented reality.

## Introduction

Internet of Things (IoT) is a new revolution of the Internet. It is a network of physical devices, vehicles, home appliances, and other items embedded with electronics, software, sensors, actuators and network connectivity which are linked to create smart environments. It allows objects to be sensed and controlled remotely across existing network infrastructure. Also, it is creating opportunities for more direct integration of the physical world into computer-based systems, which results in improved efficiency and accuracy.

One of the key learning platforms for IoT is the Raspberry Pi. The RasPi is a popular platform because it offers a complete Linux server in a tiny platform for a very low cost. In fact, one of the most difficult parts of using Raspberry Pi for learning about IoT is picking the right projects with which to begin.

The workshop will give the platform to understand and use Raspberry Pi for IoT applications.

### Objectives:

- ❖ Understand the rudiments of IoT
- ❖ Learn the features of Raspberry Pi board
- ❖ Configure Wireless Protocols WiFi, Zigbee, Bluetooth, Lora WAN
- ❖ Familiarise coding structures in Python Programming
- ❖ Interface different sensors with Raspberry Pi
- ❖ Connect Raspberry Pi to a remote access client
- ❖ Configure Raspberry Pi for Web Services
- ❖ Perform Cloud Server Experiments

### About the College:

TKR College of Engineering and Technology – a modern temple of learning, an off shoot of the TKR Educational Society was established in the year 2002 in a sprawling, lush green 20-acre campus at Meerpet, Hyderabad. The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the cut-throat global competition with a smile on the face and emerge victorious. The College is affiliated to Jawaharlal Nehru Technological University Kukatpally, Hyderabad. It has been approved by AICTE, New Delhi and the State Government of Telangana and has been sanctioned seven UG courses – Civil Engineering, Electrical & Electronics Engineering, Computer Science & Engineering, Electronics & Communication Engineering, Mechanical Engineering and PG Courses – M.Tech in CSE, PE & MBA. In addition, the College is running second shift Polytechnic in the branches – CIVIL, EEE, MECH, IT, ECE & CSE. The institute became Autonomous in 2016-17. The Institute has been providing a technology enabled teaching-learning environment (Wi-Fi) since 2005. The Institute constantly strives for improvement, competing with the premier institutions of national importance.

### About the Department:

The Department of Electronics and Communication Engineering was established in 2002. It offers to inculcate creative thinking through innovative and group work exercises which enhances the entrepreneur skills, employability and research capabilities. Students are taught how to use and employ innovative design methods and techniques. Exposure to contemporary facets planning, construction design and project management are key aspects of the course. The Department offer Undergraduate course in B.Tech Electronics and communication Engineering with an annual intake of 240.

### Course Contents:

- **IC Architecture**
- **Concept and Planning - Power partitioning**
- **Analog/Digital Interface**
- **Design Architecture**
- **Test concept, ESD/EMC concept**
- **Practical Circuit design issues in Cadence Environment**
- **Design of Amplifiers.**

### Course Outcome:

The participants will be able to develop IoT based applications using Raspberry Pi.

### Who can Attend?

Program is open to faculty members/research scholars/PG students from colleges/universities, and industry personnel working in the concerned/allied discipline.

**A REPORT ON  
The workshop titled  
“Analog CMOS Design and its implementation on present applications”  
ORGANIZED BY TKRCET BETWEEN  
04-07-2020 -05-07-2020**

A workshop was conducted on “Analog CMOS Design and its implementation on present applications” in association with Matchwell Tech Solutions by **TKRCET** (autonomous) Hyderabad from **04-07-2020 -05-07-2020**

The program commenced at 10am. The venue was the college auditorium. The welcome speech was delivered by Dr. D Nageshwar Rao HOD ,ECE TKRCET.

The workshop focused on analog designing the key point that was discussed was that the sensing interface still demands high performance analog design. Rasberry Pi one of the key learning platforms for the IoT was discussed extensively and how it could be used for IoT applications.

An attempt was made to make the participants understand the rudiments of IoT

The vote of thanks was delivered by Dr Gireesh from ECE department

Around 200 participants attended the programme.

**REPORT ON  
A WORKSHOP TITLED  
“CAREER PLANNING “  
ORGANIZED BY TKRCET BETWEEN  
16<sup>th</sup> TO 21<sup>st</sup> APRIL 2019**

A workshop was conducted in collaboration with **VIDHYA CONNECT** by **TKRCET** (autonomous) Hyderabad from **16<sup>th</sup> TO 21<sup>st</sup> APRIL 2019**

The program commenced at 10am. The venue was the college auditorium. The welcome speech was delivered by Dr. DV Ravi Shankar Principal TKRCET.

Experts from Vidhya Connect lucidly explained to the students the aim of career planning. Career planning provides a road map for the student's future that will help him/her make well informed decisions about their career and also future career moves. A concrete career plan would help the student to stay focused and motivated.

The training & placement officer Mr. Srinivas Reddy explained the various steps of career planning, which begins with getting to know one's strengths & weakness. Career planning also includes exploring various occupational options and evaluating what is best suited for the student.

Around 180 participants attended the programme.

Ministry of Electronics and Information Technology (MeitY), GOI sponsored  
FACULTY DEVELOPMENT PROGRAMME (FDP)

## Outcome Based Education

(13<sup>th</sup>-18<sup>th</sup> November – 2017)

Organized by

TKR College of Engineering & Technology (Autonomous), Hyderabad

Accredited by NAAC with 'A' Grade

Under the scheme of Electronics & ICT Academy

in association with National Institute of Technology, Warangal.

### Preamble:

"Electronics & ICT Academy" was set up at NIT Warangal with financial assistance from MeitY, Govt. of India (GoI). The jurisdiction of this academy is Telangana, Andhra Pradesh, Karnataka, Goa and Puducherry states and UT of Andaman & Nicobar Islands. This academy role is to offer faculty development programmes in standardized courses and emerging areas of Electronics, Information Communication Technologies, training & consultancy services for Industry, Curriculum development for Industry; CEP for working professionals, Advice and support for technical incubation and entrepreneurial activities.

This faculty development programme (FDP) is devoted to addressing the need to enhance the knowledge about the latest Outcome Based Education (OBE) and is open for Faculty members of engineering colleges from states mentioned above.

### Major Course Contents:

- Outcome based Education.
- Developing Outcome based Curriculum
- Vision, Mission and PSOs
- Course Outcomes and Program Outcomes
- Outcome based Evaluation and NBA Validation Criteria
- Pedagogical Issues and Academic Auditing
- Pedagogy tool demo and case studies
- Effective use of ICT tools for Education and Learning
- Student feedback and its role in improvement

### Structure of the Course:

- Theory - 25 hours: The theory for the topics specified in the 'Course Contents' is covered over 25 hours duration in classroom sessions.
- Lab - 15 hours: The participants will be applying the topics learnt by doing exercises.

### Course Evaluation:

- Continuous assessments at logical intervals. Assessment includes MCQ's, Fill in the Blanks, True/False and/or scenario based questions.

### Faculty conducting this programme:

The programme will be conducted by resource persons from Premier Institutes/industries (NITs, IITs, and NBA experts).

**Eligibility:** The programme is open to the *faculty of engineering colleges*, in Telangana, Andhra Pradesh, Karnataka, Goa and Puducherry states and UT of Andaman & Nicobar Islands. Industry personnel working in the concerned/allied discipline can also attend.

### Registration Fee Particulars:

Faculty and Research Scholars from Telangana, Andhra Pradesh, Karnataka, Puducherry, Andaman and Nicobar Islands, Goa	Rs. 2500/-
Faculty of SC/ST Category from Telangana, Andhra Pradesh, Karnataka, Puducherry, Andaman and Nicobar Islands, Goa	Rs. 1250/- (SC/ ST (Participants should submit the copy of their caste certificate to claim the concession along with application form)
Industry Participants	Rs. 7500/-
Participants from other states	Rs. 8500/-

### Payment:

The registration fee should be paid in the form of DDs/online transfer using the following details:

DD Details	Online Transfer Details
Demand Draft in favor of "Director, NIT Warangal" payable at NIT Warangal	Account Name: Electronics & ICT Academy NITW Account No: 62423775910 IFSC:SBIN0020149

### Travel and Accommodation:

All the selected participants will have to make their own arrangements for their accommodation. No TA will be paid for the participants.

### How to apply:

A filled in form of application in the prescribed format duly signed and sponsored by appropriate authorities (along with demand draft) should reach the coordinator by speed-post. It is also mandatory to send scanned application form and demand draft through e-mail to [fdptkrcet@gmail.com](mailto:fdptkrcet@gmail.com) as selection will be intimated only through mail.

### Selection Criteria:

Selection will be done based on *first-cum-first-serve basis* and the confirmed candidates will be notified immediately. The maximum number of participants will be 50 (fifty). Additionally 10 participants from industry are allowed to participate. The list of selected participants will be notified in the institute web sites [www.nitw.ac.in](http://www.nitw.ac.in), [www.tkracet.ac.in](http://www.tkracet.ac.in) and is also sent to their personal e-mail ids. In case a candidate is not selected, the demand draft will be sent back. A test will be conducted at the end of the course. Candidates will be issued certificates on successful completion of the course along with grade. Reservations are followed for selecting candidates as per GOI norms.

### Important dates:

Last date for submission of application: **08<sup>th</sup> November 2017**  
Selection-list intimation/display before: **10<sup>th</sup> November 2017**  
Duration of Program: **13 -18 November, 2017**

### About the Institutes:

**TKR College of Engineering & Technology (TKRCET)**, Medbowli, Meerpet, Hyderabad, Telangana, was established in the year 2002, with a vision of "Indian in Character, and International in Excellence" under the aegis of **TKR Educational Society**. The College represents a rich tradition of excellence in technology-based education, as proven mark. TKRCET has been conferred with Autonomous status by the University Grants Commission (UGC), New Delhi and JNTU Hyderabad. Also, the College holds the pride of being first Accredited (Re-Accredited) college in the state of Telangana, by NBA under the process of Outcome Based Education system. The college is also accredited by NAAC with 'A' grade. UGC recognition under Sections 2(f) and 12 (B) further strengthens over cause of quality education. The college is committed and dedicated to mould the students into quality engineers and technologists with aplomb by providing world class scientific and technical education through ensuring excellent branch wise infrastructural facilities with eminent and qualified faculty.

**National Institute of Technology:** National Institute of Technology (formerly Regional Engineering College), Warangal is the first among 17 RECs setup as joint venture of the Government of India and the state government. Over the years the college has established itself as a premier Institution imparting technical education of a very high standard leading to the B.Tech degrees in various branches of engineering, M.Tech. and Ph.D programs in various specializations. All B. Tech and M. Tech programmes of NIT Warangal are NBA accredited.

**REPORT ON  
FDP TITLED  
“OUT COME BASED EDUCATION “  
ORGANIZED BY TKRCET BETWEEN 13-18 NOVEMBER 2017**

An FDP on outcome based education (OBE) which is sponsored by ministry of Electronics & information technology was organized by TKRCET (autonomous) Hyderabad from 20<sup>th</sup> to 22<sup>nd</sup> February 2020.

The program commenced at 10am. The venue was the college auditorium. The welcome speech was delivered by Dr. A.Suresh Rao, Dean Academics TKRCET

Resource persons from NIT Warangal delivered valuable information on what is the meaning of outcome based education.

The resource person asserted that OBE is an educational method that places students at the center of an academic programme. He emphasized the need for teachers to bridge curricular gaps in achieving the program outcomes. These curricular gaps could addressed through co-curricular & extracurricular activities which are beyond the curriculum. He also emphasized the fact that unlike traditional approaches OBE is a student centric and the teacher's role is to facilitate guide and mentor.

Around 200 participants attended the programme.
