INDUSTRY 4.0 - A DIGITAL TRANSFORMATION SEMINAR

On: 23rd May 2022

Organized By: Civil Engineering Department

Resource Persons:

- 1) Dr. N V S Raju,
Professor & Co-coordinator,
IQAC, JNTUH-UCEJ,
Jagtial.

Industry 4.0, the fourth industrial revolution conceptualizes rapid change to technology, industries and social patterns in the present scenario due to increase in inter connectivity and smart automation.

Industry 4.0 is the Information intensive transformation of manufacturing in a connected environment of big data, people, processes, services and IOT enabled industrial, assets with generation leverage and utilization of actionable data and information as a way and means to realize smart industry and ecosystems of industrial innovation and collaboration.

Accredited by NBA & NAAC with 'A' Grade)

The objective of the seminar is to familiarize the advancement of technology in various industries and to depict the future scenario for the upcoming generation and also to stimulate and improve efficiency, agility and safety in every aspect of their carrier advancement.

The insertion of Industry 4.0 Technologies into civil construction has allowed sensors, robots, modelling and simulation systems, artificial intelligence, and drones to have their productivity, efficiency, safety, strategic and environmental management enhanced. Industry 4.0 is revolutionizing the way companies manufacture, improve and distribute their products. Manufacturers are integrating new technologies, including Internet of Things (IoT), cloud computing and analytics, and AI and machine learning into their production facilities and throughout their operations.

Topic covered:

- Emerging technologies automation in construction Industry.
- Water supply automation for house hold drinking water.
- Electrical house hold appliances automation through sensors and internet.
- Necessity of learning software for civil engineers.
- Everyone should be updated himself to the new techniques.
- Scope of new business ideas for entrepreneurs.

Industrial revolution thermography has been widely used in civil engineering for the identification of heat losses in building envelopes. In numerous cases this technique was applied successfully for all kinds of buildings and many sources of heat loss have been successfully detected.

By adjusting the traditional nature of construction industry with the digitization of manufacturing through Industry 4.0, construction industry may gain many benefits. This includes **lower cost of production due to reduced labour, improved communication and increased quality of product or services.**

Respected Sir,

This is to bring to your kind notice that *Department of Civil Engineering and Institution's Innovation Council (IIC)*, has taken an initiative to conduct A Seminar on "**Applications of RS & GIS in Jurisdictional Changes & Geo-Technical Investigation for Civil Infra Projects**" with an objective to familiarize the advancements of technology in geo-visualization and to depict the future scenario for the students and their development on 27-08-2022.

The following are the Resource Persons:

1. Dr. P John Samuel, Research Officer (Map), Directorate of Census Operations, Telangana.
2. Mr. E Rakesh Reddy, MD, EE Engineering Construction Services, Hyd.
3. Dr. R Premsudha, Professor, TKRCET.

In this regard, we humbly request your high office to permit us for conducting the seminar.

Thank you,

Yours Sincerely,

APPLICATION OF RS & GIS AND GEOTECHNICAL INVESTIGATION SEMINAR

On: 27th Aug 2022

Organized By: Civil Engineering Department

Resource Persons:

- 1) Dr. P John Samuel,
Research Officer,
Director of Census Operations,
Hyderabad, Telangana.
- 2) Mr. E Rakesh Reddy,
Managing Director,
EE Engineering Construction Services,
Hyderabad.

Remote sensing is one of the methods commonly used for collecting physical data to be integrated into GIS. It enables agencies to get reliable information of natural and man made features or processed and interpreted approximately phenomenon occurring over the earth's surface without making any physical contact for preparation of maps.

Geotechnical evaluation is an engineering site assessment that determines what the foundation conditions are and recommends options for foundation design. It is performed by a geotechnical engineer, and is required for most engineered structures including buildings, bridges, roads and towers.

Topic covered:

- History of remote sensing and GIS.
- Importance to satellites in GIS applications.
- Procedure of doing survey through aerial.
- Interpreting satellite data and preparation of maps.
- Need of Geo technical investigation for all projects.
- Methods of exploring foundation soil properties.
- Types of soils and their properties.
- Improvement techniques to strengthen the soil properties.
- Stabilization of active soil moving bodies.

With this seminar students happen to get familiarize the various physical applications with GIS and Geo technical investigation and to depict the future scenario for the preparation of maps and also to design structures, agility and safety in every aspect of their new projects.

A SEMINAR REPORT ON OPPORTUNITIES THROUGH GATE EXAM AND
PREPARATION STRATEGY.

Date: 19/12/2021

The department of EEE has organized a One day Seminar on Career opportunities through gate exam and preparation strategy for III Year students in association with ohm institute Hyderabad.

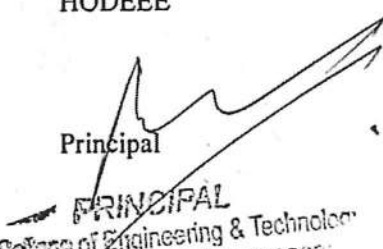

The Seminar has begun with the inaugural session on 19.12.2021 at 1:00 PM in Auditorium by the Principal, Dean(Academics) and Faculty of TKRCET. The dignitaries have delivered the importance of the Seminar in this session . 60 students participated in the seminar. The students have gained basic knowledge on career opportunities through gate exam and preparation strategy.

The one-day Seminar has begun immediately after inauguration. After the completion of all the sessions of workshop successfully, valedictory function was carried out. The students gave their feedback of regarding the conduction of Seminar. Distribution of certificates and vote of thanks were given by the coordinators.

Dr. Md.Qutubuddin and P.V. Raghava reddy were the coordinators.

Event: One week work shop on Auto CAD for 4th Year Mechanical Engineering Students

Dates: 10.06.2021 - 15.06.21

Duration: One Day

Target Group: B. Tech 4th Year Mechanical Engineering Students

Resource Persons:

Dr. D.V Ravishankar, Principal, TKRCET

Dr. G. Gopala Krishna, Professor and Head, TKRCET

Coordinator: Ubed UR Rahamaan, Asst. Professor,

TKRCET Venue: Auditorium, TKR College of

Engineering & Technology

Programme Objectives:

- Learn sketching, taking field dimensions, data and transform it into graphic drawings.
- Learn basic skills of AutoCAD, draw 2D drawings engineering drawing formats.

Purpose of the Program:

AutoCAD is a commercial computer-aided design and drafting software application.

Developed and marketed by Autodesk. It is used to draw and edit digital 2D and 3D designs more quickly.

The inauguration was held on 04th January 2021 online at 09:00 am. Chief Guest of the program Shri Teegala Krishna Reddy, Chairman, TKR Education Society along with Dr. D.V. Ravi Shankar, Professor & Principal, TKR college of Engineering & Technology (TKRCET) Hyderabad, Dr. A. Suresh Rao, Dean Academics, TKRCET, Hyderabad and Dr. G. Gopala Krishna, Head, Department of Mechanical Engineering, TKRCET and Dr. M.A. Mateen Coordinator chaired the function.

Shri. Teegala Krishna Reddy, Chairman, TKR Education Society, appreciated the initiative taken by AICTE to training the faculty in the latest technology and urged the faculty to utilise this FDP to gain the knowledge.

Dr. D.V. Ravi Shankar, Principal, TKR college of Engineering & Technology Hyderabad, addressed the participants about online FDP and highlighted the importance of this 3D Printing Technology and Dr. A. Suresh Rao, Vice-Principal, TKR college of Engineering & Technology Hyderabad, welcomed the participants and highlighted the importance of multidisciplinary teaching and research. Dr. G. Gopala Krishna, Head of Mechanical Engineering Department, TKRCET, requested the participants to effectively utilize the resources provided. Dr. M.A. Mateen, Coordinator proposed the Vote of Thanks.

Dear Dr. Mateen

This is Dr. Uttam Kumar Mandal from Maharaja Ranjit Singh Punjab Technical University (MRSPTU), Bathinda, Punjab.

Sir, let me first congratulate you for successfully organizing the FDP ATAL workshop. It was a well organized and very good FDP.

In fact, I am not from an Engineering background. I am from the pharmacy field. Recently, I am working on drug delivery using 3-D printing technology, and recently secured one research fund on the same from DST. That's why I was very much interested for your FDP and got lot of recent information on this area.

As you are also working in the same field, we can collaborate based on our mutual and common research interests. My area of interest is transdermal drug delivery, the delivery of drugs through the skin. If you have something in your mind where you need the expertise of a drug delivery person, I may be your help.

One more thing, sir, may I get some of the PPTs of your FDP resource persons, they will be very much helpful for me. Waiting for your reply.

Thanking you

Dr. Uttam Kumar Mandal

It was a great Initiative by ATAL Academy. I am thankful to AICTE for giving me this opportunity to conduct online FDP for faculty members of technical institute of India free of cost. I got huge response for registration as well as lots of compliment of arranging the online workshop, content, and hands on.

TASK PROGRAM ON ADDITIVE MANUFACTURING -3D PRINTING USING FUSION 360

Event: TASK program on Additive Manufacturing -3D printing using Fusion 360

Dates: 29th Sep 2021 to 5th Oct 2021

Duration: One week

Target Group: Faculty and Research Scholars from academic institutions and Engineers from industry

Resource person: Dr. S. Rajesham, Professor in Mechanical Engineering, RGUKT, Basar
Dr. M. A. Mateen, Associate professor, CMR University, Bangalore

Coordinators: Dr. K. Naveena Latha, Associate Professor,

Venue: TKR College of Engineering & Technology, Hyderabad

Programme Objectives:

- 3D printing is a tool that allows people to create new things, limited only by imagination.
- 3D printing and modelling has ability to design, manufacture and test a component in a short period of time.
- Faculty will be introduced to 3D printing and learn how to create their own print files.

Purpose of the Programme:

3D Printing is an Additive Manufacturing technique that creates a physical object from a virtual 3D CAD model in a faster and effective way. It has gained a lot of attention as it has changed the way a product can be manufactured. The concept of "Additive Manufacturing" is yet another technological advancement made possible by the transition from analog to digital processes. In recent decades, communications, imaging, architecture and engineering have all undergone their own digital revolutions. Now, AM can bring digital flexibility and efficiency to manufacturing operations. 3D printers are the medium through which AM happens. It has a great impact on the manufacturing domain. Hence it is important for the academicians to get awareness of the present day technology.

By conducting this programme, the faculty and Research scholars have gained knowledge in 3D printing, and how to implement them practically in order to the experimental work specially in the research work.

Dr. M. A. Mateen, Assoc. Professor, CMR University, Bangalore,

Dr. K. Vengal Rao, Assoc Professor, VFSTR

Mr.G. Srikar, Assoc Professor, VFSTR.

Coordinator: Mr. A. Kiran Kumar, Assistant Professor

Venue: Online mode, TKR College of Engineering & Technology

Programme Objectives:

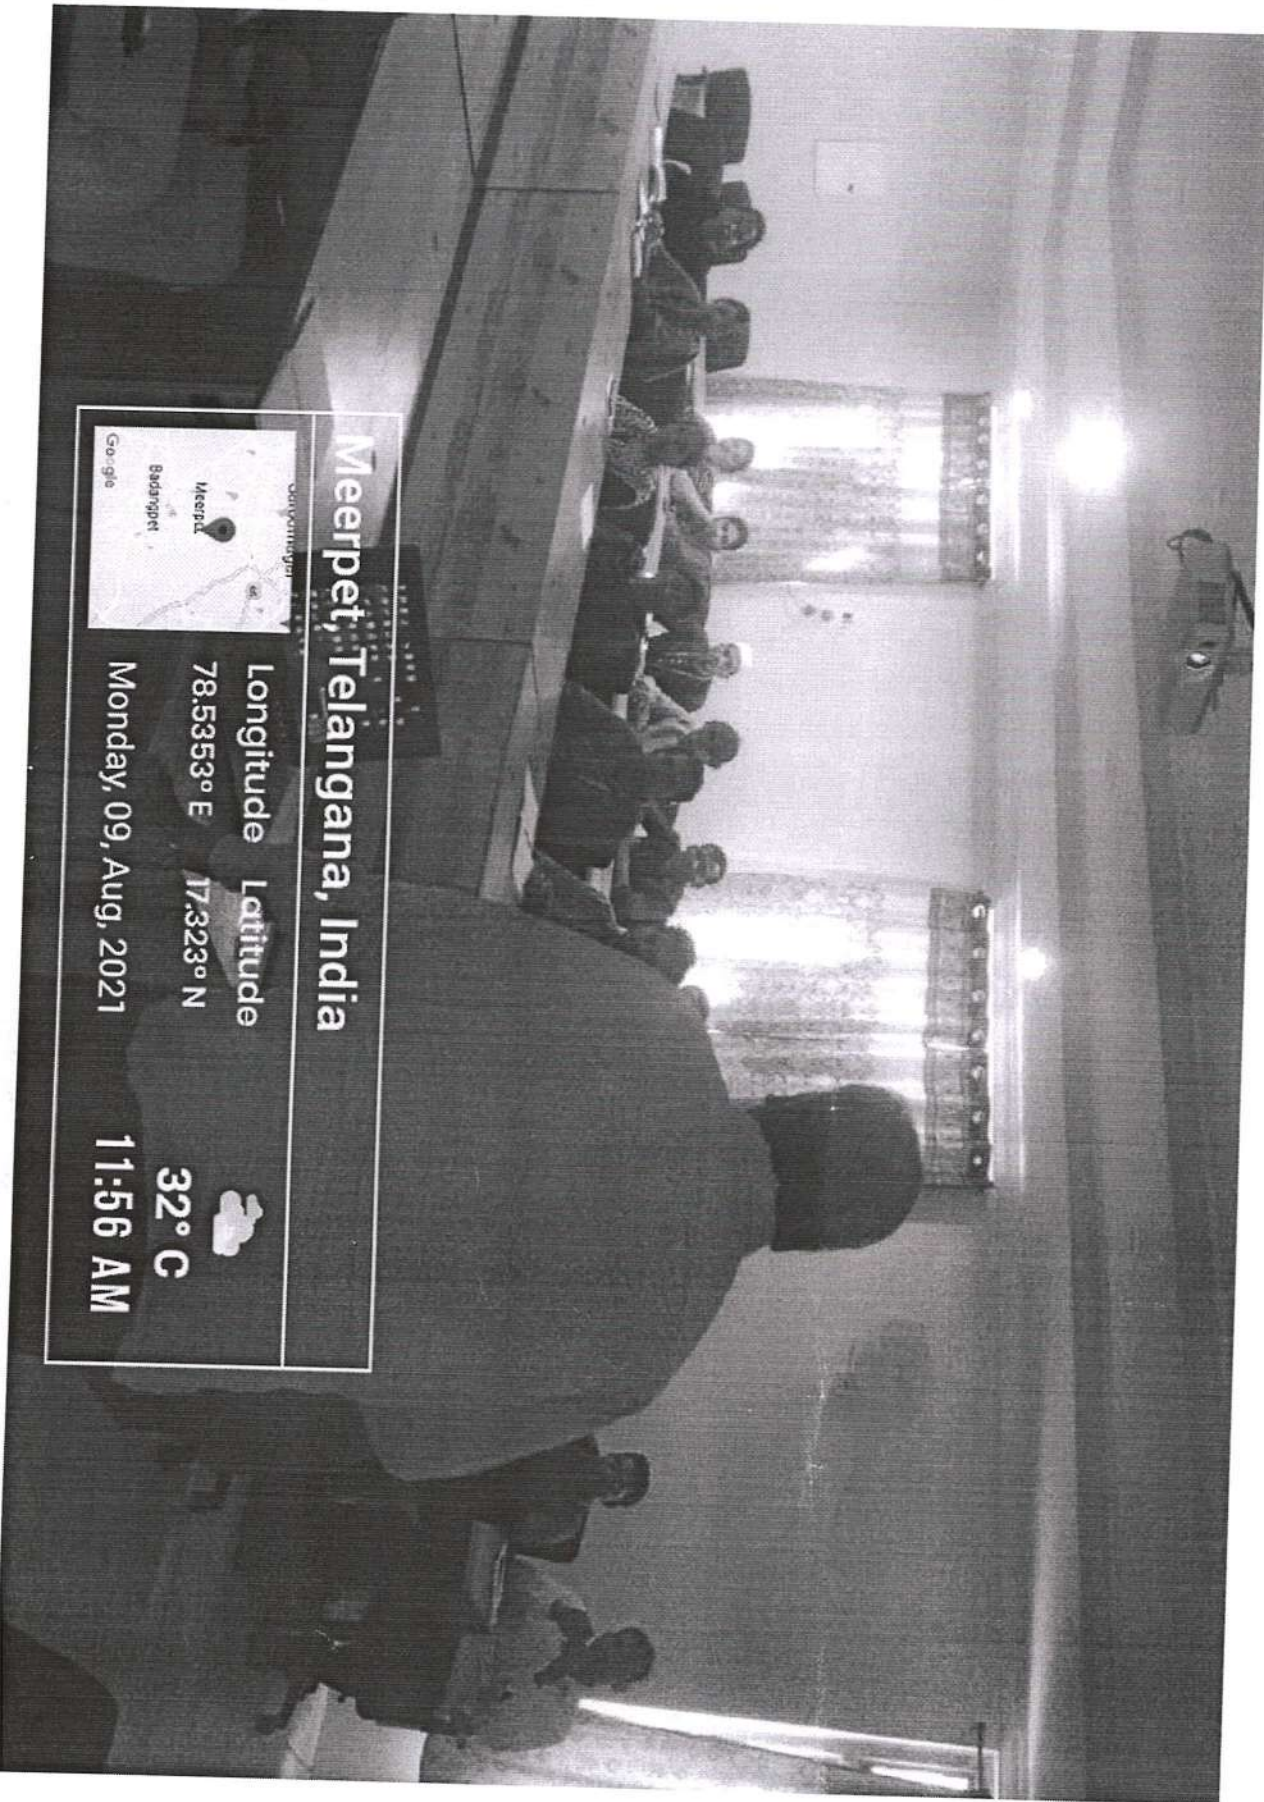

- Training the faculty on the nature and behavior of composite materials at the time of application of loads.
- Understanding the dimension of failure/deformation in composite materials during the manufacturing process.

Purpose of the Program:

Composite Materials and Research Avenues are useful in reducing the number of experiments drastically based on various process parameters involved in the experiments. It is important for participants to understand the flexural and Dynamic-Mechanical Analysis of composite materials with embedded circular and square defects and also comprehends the distribution of stress and how it can be made uniform at the required testing area in various types of loads.

A Report on Workshop on Design thinking on CAD and Additive Manufacturing

Event: Workshop on Design thinking on CAD and Additive Manufacturing

Dates: 9th to 14th December, 2021

Duration: One week

Target Group: Faculty and Research Scholars from academic institutions and Engineers from industry

Resource persons: Dr P. Ram Reddy, Former Registrar, JNTU, Hyderabad

Prof. G. Chandra Mohan Reddy, Professor, CBIT, Hyderabad

Dr M.A. Mateen, Professor, CMR University, Bengaluru

Coordinator: Dr. G. Gopala Krishna, ME, PhD, Professor

Venue: TKR College of Engineering & Technology, Hyderabad

Programme Objectives:

- Enhancing the knowledge of Design thinking and Additive Manufacturing
- The basic requirement of the additive manufacturing
- The methodology adopted in the design aspects of CAD

Purpose of the Programme:

The main purpose of conducting the workshop is to explore the new possibilities in design in Additive manufacturing due to its higher degree of design freedom. It will increase creativity in product design.

The main focus of this workshop is to introduce creativity management during the implementation of new technologies which impacts the creative abilities among the teachers of design and manufacturing.

Introduction

The workshop was aimed to provide knowledge about Complete PCB Designing using simulation tool to test electronics & electrical circuit in software environment and also its Fabrication, PCB design software named Cad soft EAGLE & to make physical PCB at home so that any student can make project on his own.

The learning objectives of this course are:

The basic objective of the workshop is to provide industry relevance exposure in the emerging technologies and expose the students get ready to the industry requirement.

This is a basic course for designing of PCB using software. PCB (Printed Circuit Board) designing is an integral part of each electronics products and this program is designed to make students capable to design their own projects PCB up to industrial grade

- Introduction to PCB designing concepts
- Component introduction and their categories
- Introduction to Development Tools
- Detailed description and practical of PCB designing
- Lab practice and designing concepts

About the College:

TKR College of Engineering and Technology – a modern temple of learning, an off shoot of the TKR Educational Society was established in the year 2002 in a sprawling, lush green 20-acre campus at Meerpet, Hyderabad. The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the cut-throat global competition with a smile on the face and emerge victorious. The College is affiliated to Jawaharlal Nehru Technological University Kukatpally, Hyderabad. It has been approved by AICTE, New Delhi and the State Government of Telangana and has been sanctioned seven UG courses – Civil Engineering, Electrical & Electronics Engineering, Computer Science & Engineering, Electronics & Communication Engineering, Mechanical Engineering and PG Courses – M.Tech in CSE, PE & MBA. In addition, the College is running second shift Polytechnic in the branches – CIVIL, EEE, MECH, IT, ECE & CSE. The institute became Autonomous in 2016-17. The Institute has been providing a technology enabled teaching-learning environment (Wi-Fi) since 2005. The Institute constantly strives for improvement, competing with the premier institutions of national importance.

About the Department:

The Department of Electronics and Communication Engineering was established in 2002. It offers to inculcate creative thinking through innovative and group work exercises which enhances the entrepreneur skills, employability and research capabilities. Students are taught how to use and employ innovative design methods and techniques. Exposure to contemporary facets planning, construction design and project management are key aspects of the course. The Department offer Undergraduate course in B.Tech Electronics and communication Engineering with an annual intake of 240.

Course Contents:

- Schematic Design
- Component Footprint Design
- Integrated Library Design
- PCB Design & Routing
- Etching of PCB
- Soldering of Components on to PCB.

Who can Attend?

Program is open to faculty members/research scholars/PG students from colleges/universities and industry personnel working in the concerned/allied discipline.

DEPARTMENT OF E.C.E A WORKSHOP ON “PCB DESIGN(17-19 Dec-21) REPORT

Date: 21/12/2021

The department of ECE has organized a workshop on “PCB Design” for II Year students in association with “SRI MUDRA Technologies”.

The workshop has begun with the inaugural session on 17.12.2021 at 10:00 AM in Auditorium by the Principal, Dean(Academics) and Faculty of TKRCET. The dignitaries have delivered the importance of the workshop in this session. The three-day workshop has begun immediately after inauguration and had the practical session in ECE Labs.

200 students participated in the workshop. The students have gained basic knowledge on PCB design and hands on experience on it. The topics that are covered in this workshop are: The role of printed circuit board in Electronics, need of PCB, Methods of PCB approach, types of PCB'S, initializing the Proteus software, selecting parts from the libraries, placing objects on Schematic, wiring up the components, power connection, zoom in and zoom out of the particular part, designing the power supply circuits etc. on 1st day.

On the 2nd day, Circuit designing for PCB, net list transferred to AR ES, circuit design for Astable multivibrator using 555 timer, preparing for PCB layout, designing the circuits etc. were learnt and implemented.

On the final day, printing stencil & exploring on copper clad, etching the PCB, drilling the PCB, soldering the components on designed PCB, testing and debugging the PCB o/p were verified completed.

After the completion of all the sessions of workshop successfully, valedictory function was carried out on the last day. The students gave their feedback of regarding the conduction of workshop. Distribution of certificates and vote of thanks were given by the coordinators.

Dr. B. Swapna Rani and Dr M.Girish Kumar were the coordinators and Dr.D .Nageshwar Rao is the convener of the workshop.

Introduction

OpenCV is a huge open-source library for computer vision, machine learning, and image processing. OpenCV supports a wide variety of programming languages like Python, C++, Java, etc. It can process images and videos to identify objects, faces, or even the handwriting of a human. When it is integrated with various libraries, such as NUMPY which is a highly optimized library for numerical operations, then the number of weapons increases in your Arsenal i.e whatever operations one can do in Numpy can be combined with OpenCV.

The learning objectives of this course are:

- To understand why Python is a useful scripting language for developers.
- To learn how to design and program Python applications.
- To learn how to use lists, tuples, and dictionaries in Python programs.
- To learn how to identify Python object types.
- To learn how to use indexing and slicing to access data in Python programs.
- To define the structure and components of a Python program.
- To learn how to write loops and decision statements in Python

About the College:

TKR College of Engineering and Technology – a modern temple of learning, an off shoot of the TKR Educational Society was established in the year 2002 in a sprawling, lush green 20-acre campus at Meerpeta, Hyderabad. The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the cut-throat global competition with a smile on the face and emerge victorious. The College is affiliated to Jawaharal Nehru Technological University Kukatpally, Hyderabad. It has been approved by AICTE, New Delhi and the State Government of Telangana and has been sanctioned seven UG courses – Civil Engineering, Electrical & Electronics Engineering, Computer Science & Engineering, Electronics & Communication Engineering, Mechanical Engineering and PG Courses – M.Tech in CSE, PE & MBA. In addition, the College is running second shift Polytechnic in the branches – CIVIL, EEE, MECH, IT, ECE & CSE. The institute became Autonomous in 2016-17. The Institute has been providing a technology enabled teaching-learning environment (Wi-Fi) since 2005. The Institute constantly strives for improvement, competing with the premier institutions of national importance.

About the Department:

The Department of Electronics and Communication Engineering was established in 2002. It offers to inculcate creative thinking through innovative and group work exercises which enhances the entrepreneur skills, employability and research capabilities. Students are taught how to use and employ innovative design methods and techniques. Exposure to contemporary facets planning, construction design and project management are key aspects of the course. The Department offer Undergraduate course in B.Tech Electronics and communication Engineering with an annual intake of 240.

Course Contents:

- Introduction to Python Programming and Open CV.
- STRINGS (with Hands-on program's)
- Control flow Structure (with example program's)
- DATA STRUCTURES. (with example program's)
- Application program
- Hands on session Applications
- Introduction to an Open-cv, NumPy, imutils
- Algorithms of Open CV
- Image & video processing using Computer vision
- Edge detection using OpenCV
- Image to text to speech conversion using python

Who can Attend?

Program is open to faculty members/research scholars/PG students from colleges/universities and industry personnel working in the concerned/allied discipline.

DEPARTMENT OF ECE

A WORKSHOP ON “PYTHON Programming for Digital Image Processing” (8th to 10th- Apr-22) REPORT

Date: 11/04/2022

The Department of ECE has organized a workshop on “PYTHON Programming for Digital Image Processing” for III Year students in association with “PANTECH E-LEARNING”.

The workshop has begun with the inaugural session on 08.04.2022 at 10:00 AM in DSP LAB by the Principal, Dean(Academics), HoD and Faculty of TKRCET. The dignitaries have delivered the importance of the workshop in this session. The workshop has begun immediately after inauguration and had the practical session in ECE Labs.

Around 120 students participated in the workshop. The students have gained basic knowledge on Python programming and hands on experience on it. The topics that are covered in this workshop are: Introduction to python programming and Open CV, Strings, Control flow structures, Data structures, Hands on session on 1st day.

On the 2nd day, Introduction to Open CV, Numpy, imutils, Hands on programs, Image and video processing using computer vision, providing the camera/IP web camera access using Open CV, Edge detection using Open CV, Color object detection using Open CV were learnt and implemented.

On the final day, Image to text to speech application, QR code detection application, Fire, Face detection applications were implemented using Open CV and finally students were learned about Deep learning concepts and testing.

After the completion of all the sessions of workshop successfully, valedictory function was carried out on the last day. The students gave their feedback of regarding the workshop on every day. We were conducted a QUIZ on workshop related content and Distribution of certificates and vote of thanks were given by the coordinators.

Dr.P.Venkata lavanya and M.Gnanesh Goud were the coordinators and Dr.D.Nageshwar Rao, HoD of ECE is the convener of the workshop.

A Report on "Spring"

Date: 01.12.2021

"A Seminar on "Spring" was organized for faculty & students of CSE Department, on 01.12.2021.

The following is the list of Resource Persons.

1. D.L.N.PRASANNA, Tech Lead, HCL.
2. Dr. V. Krishna , Professor, CSE, TKRCET.

This Seminar was organized by department of CSE, TKRCET. This Seminar covered Spring in engineering.

This Seminar was divided into 2 sessions on 01.12.2021. The following Topics and modules are covered by the Resource Persons.

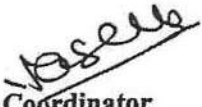

Session-1(10.00AM-1.00PM):

- Introduction
- Foundational Spring
- Integrated Spring
- Reactive Spring

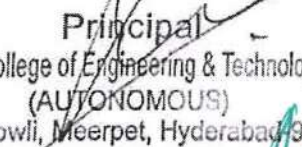

Session-2 (2.00PM-4.00PM):

- Cloud- native Spring
- Deployed Spring

The Seminar gave insights and knowledge on Spring fundamentals and different modules of Spring. Seminar was attended by 55 Faculties with tremendous contribution and response from Staff, Programme was grand success. Feedback gathered for the content of Seminar indicates that session was helpful and the concepts learned can be applied in their engineering.

A Report on "Implementation of Network Security"

Date: 18.2.2022

"A FDP on "Implementation of Network Security" was organized for faculty of CSE Department, on 16.2.2022.

The following is the list of Resource Persons.

1. Dr.N.Satyanarayana

This fdp was organized by department of CSE, TKRCET. This Seminar covered Deep Learning in engineering.

This fdp was divided into 3 sessions from 16.2.2022-18.2.2022. The following Topics and modules are covered by the Resource Person.

Session-1

- Network Security Fundamentals

Session-2

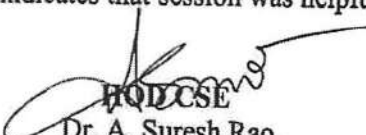

- Network Analysis and Forensics

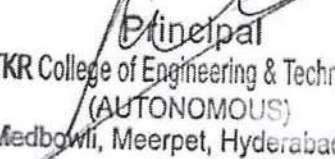

Session-3

- Anatomy of Network Attack
- DNS Security

The FDP gave insights and knowledge on network security fundamentals and applications. FDP was attended by 55 faculties with tremendous contribution and response from faculties. Program was a grand success. Feedback gathered for the content of FDP indicates that session was helpful and the concepts learned can be applied in their engineering.

A Report on "Recent trends in DL"

Date: 21.1.2022

"A FDP on "Recent trends in DL" was organized for faculty of CSE Department, on 19.1.2022.

The following is the list of Resource Persons.

1. K.M.V Madhan Kumar

This fdp was organized by department of CSE, TKRCET. This Seminar covered Deep Learning in engineering.

This fdp was divided into 3 sessions from 19.1.2022-21.1.2022. The following Topics and modules are covered by the Resource Person.

Session-1

- Introduction
- Recent Trends in Deep Learning Architectures
- Introduction to Neural Network
- Real time object detection using DNN

Session-2

- Deep Learning Applications in Diseases Prediction
- Medical Image processing with deep learning

Session-3

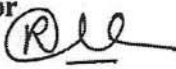

- Face tracking tool using Deep Learning Techniques
- Applications of Videos analysis and Image Classification using Deep Learning

The fdp gave insights and knowledge on Deep learning fundamentals and applications. FDP was attended by 57 faculties with tremendous contribution and response from faculties. Program was a grand success. Feedback gathered for the content of FDP indicates that session was helpful and the concepts learned can be applied in their engineering.

A Report on "Recent Development for Intellectual Property Right"

Date: 18.09.2021

"A Workshop on "Intellectual Property Rights" was organized for faculty of CSE Department, on 13.09.2021.

The following is the list of Resource Persons.

1. Prof. Raghava Rao(KLU)

This workshop was organized by department of CSE, TKRCET. This Seminar covered Deep Learning in engineering.

This workshop was divided into 6 sessions from 13.09.2021-18.09.2021. The following Topics and modules are covered by the Resource Person.

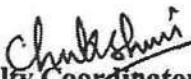

Objectives of the Workshop

- Promote development of infrastructural facilities for registration of intellectual property by facilitating the improvement of legal, institutional and administrative framework.
- To stimulate the creation and growth of intellectual property by undertaking relevant measures.
- To catalyse commercialization of IP rights.

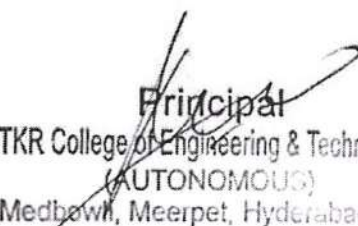

Contents of the Workshop:

- Overview on Intellectual Property Rights.
- How to convert the Research/Project works into Patents.
- Copyrights and Trademarks
- Hands-on-Training on Patent Search for Innovation.

The workshop gave insights and knowledge on intellectual property rights fundamentals and applications. Workshop was attended by 50 faculties with tremendous contribution and response from faculties, Program was grand success. Feedback gathered for the content of workshop indicates that session was helpful and the concepts learned can be applied in their engineering.

Sub: Request to permit us to conduct Workshop

Respected Sir,

We are glad to inform you that Department of Information Technology took the initiative to conduct a one day workshop on **"Hands-on Workshop on Internet of things using Raspberry Pi"**

The speaker of the session is

1. Dr.R. Muruganatham, Department of Information Technology, TKR College of Engineering and Technology, Hyderabad.

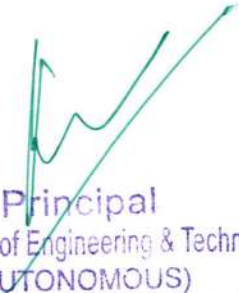

The tentative schedule of organizing workshop is on 18/02/2022.

In this regard, we request the high office, to permit Department of Information Technology to conduct the Workshop.

Thanking you Sir,

Report on Grooming for Hiring

Report on Skill Development on Grooming for Hiring held at TKR College of Engineering & Technology from 1st March 2022 to 5th March 2022

From 1st March 2022 to 5th March 2022, a skill development program on Grooming for Hiring was held at TKR College of Engineering & Technology. The program was organized by the college's placement cell and the resource person for the program was M. Sai Kumar.

The program aimed to provide students with practical skills and knowledge required to groom them for the hiring process. The program was held for five days, with each day covering a different topic related to grooming and hiring.

M. Sai Kumar, the resource person for the program, began by introducing himself and providing an overview of the program. He discussed the importance of grooming in the hiring process and emphasized that first impressions matter.

The program covered various topics, including personal grooming, dressing for success, body language, communication skills, and interview etiquette. Mr. Kumar provided the students with practical tips and advice on how to improve their personal grooming habits and how to present themselves in a professional manner during job interviews.

The program was interactive, with Mr. Kumar encouraging students to participate in discussions and share their experiences. He also provided examples of common mistakes that candidates make during interviews and how to avoid them.

The program was well-received by the students, with many of them commenting on how informative and practical the sessions were. They appreciated the tips and advice provided by Mr. Kumar and felt more confident in their ability to present themselves professionally during job interviews.

In conclusion, the skill development program on Grooming for Hiring held at TKR College of Engineering & Technology from 1st March 2022 to 5th March 2022 was a great success. The program provided students with practical skills and knowledge required to groom them for the hiring process. The students appreciated the insights shared by the resource person and the interactive nature of the program. We would like to thank M. Sai Kumar for his expert guidance.
